

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. INTRODUCTION.

This Directory contains the names and addresses of the members of the Washington Academy of Sciences and of its eleven affiliated societies. With few exceptions, it shows for each member (*a*) the customary form of address, (*b*) full name, (*c*) place of business, (*d*) residence, and (*e*) society membership. As it was deemed necessary to restrict each entry to a single line, this plan could not be fully carried out in every instance, but it was adhered to as far as practicable. It also contains a concise statement as to each society, showing its age, organization, object, and present officers.

This Directory, like that for 1899, 1900, and 1901 (none was published in 1902), has been prepared and published under the direction and at the cost of the Washington Academy of Sciences. It may be regarded as the successor to the Joint Directory of the Scientific Societies of Washington, which first appeared in 1889, and annually thereafter till 1898. As a basis for its compilation, circulars asking for data were mailed to the members, accompanied by cards for returns. It has been compiled from these returns, so far as they were received in time for use.

It is corrected to about January 15, 1903. A few changes of later date were incorporated while the work was going through the press. It was compiled and put through the press by Marcus Baker. His illness has delayed its publication.

ACADEMY OF SCIENCES.

"THE WASHINGTON ACADEMY OF SCIENCES" was organized early in 1898 through the joint action of the Joint Commission and the component societies. It was incorporated February 18, 1898. Its objects are to (a) acquire, hold, and convey real estate; (b) hold meetings; (c) publish and distribute documents; (d) conduct lectures; (e) conduct, endow, or assist research; (f) acquire and maintain a library; and (g) transact any business pertinent to an academy of sciences.

It acts as the federal head of the affiliated societies. There is a Vice President from each affiliated society, nominated by the society and elected by the Academy.

Only members of the affiliated societies are eligible to resident membership in the Academy. The present membership is 326, classed as 8 patrons, 152 resident members, and 166 non-resident members. The names of all are included in this Directory.

It has published four volumes, entitled *Proceedings of the Washington Academy of Sciences*, and begun the publication of volume V.

Meetings are held as determined by the Board of Managers. The annual dues are five dollars. There is no entrance fee. Elections are annual, and are held on the third Thursday in January.

The present officers, elected January 15, 1903, are as follows:
